We currently have a job opening for a **Software Test Engineer(m/f) - Spain**, available at the soonest possible starting date.

XING is the social network for business professionals. More than 11 million members worldwide use XING to boost their business, job, and career. XING is a platform where professionals from all kinds of different industries can meet up, find jobs, colleagues, new assignments, cooperation partners, experts and generate business ideas. Members can meet and exchange views in over 50,000 specialist groups, while also getting together at networking events. The platform is operated by XING AG, which was founded in Hamburg, Germany, in 2003 and has been publicly listed since 2006. In December 2010, XING acquired amiando AG, a Munich-based company and Europe's leading provider of online event management and ticketing. Please visit [www.xing.com](http://www.xing.com) for more information.

- You are passionate about software quality?
- You delight in exploration and are a natural teamplayer?
- You flourish in a crossfunctional setting?

We have an opportunity for you!

## Software Test Engineer(m/f) - Spain

### Summary of Key Responsibilities:

- As a software quality and test expert you are the quality conscience of one of our development teams.
- During sprint planning, you discover the true complexity behind the product manager's ideas.
- During development, you design test cases, and when you find ambiguities, you confer with the product manager to ensure the team is heading towards the right direction.
- You execute the tests and you are responsible for the defect management.
- You write automated regression tests.
- You inspire the developers to deliver a high quality product.
- Afterwards, you discover those critical bugs that only a professional tester can find.
- You have already used Selenium, Capybara, Grails, or Ruby on Rails.
- You are comfortable on the Linux command line.

### Required Knowledge, Skills and Abilities:

- You always know one more way to improve things – and you know when "good" is "good enough".
- You can use "agile", "process", and "documentation" in one sentence and feel comfortable with it.
- You know what an ISTQB certification is good for – and what it is not.
- The colleagues of your prior job will miss you because you found those critical bugs – and appreciative words when receiving good quality.
- You know Java (or Ruby, or Perl), web application development – and you learn what you don't know yet.
- You see the error in this sentence.
- You know the advantages of Scrum and Kanban – and the disadvantages. There is no silver bullet.

- You laugh at work. Daily. Multiple times.
- You sleep better, if "just this one additional bug" has been fixed.
- You dream in English.

#### **What we offer**

- Crossfunctional, agile teams: Agile Coaches, product owners, UX designers, frontend ninjas, Perl- and Ruby gurus collaborate with you (normally in a Scrum or Kanban context) to build a part of the XING platform.
- Technology: We use a multitude of cutting edge tools and languages: Selenium, Linux, Java/TestNG, MySQL, Ruby on Rails, Git, Perl, Firebug, Eclipse, HTML/CSS, JavaScript, JIRA/Confluence, ...
- Personal Advancement: We encourage trainings and conferences, be it for knowledge sharing or your own talk. If you have product ideas yourself, advance them during the regularly held innovation days.
- Did we mention fun?

As part of your application, please include

- Your ideas on how to test our login page [www.xing.com](http://www.xing.com)
- Optional (bonus points!): A description of a bug you found anywhere on [www.xing.com](http://www.xing.com)

Bitte bewerben Sie sich direkt über den obenstehenden "Jetzt bewerben" /(Apply now) - Button.

**TIPP:** Auf unserem Unternehmens-Weblog [XING Blog](#) erhalten Sie einen ersten Einblick in unsere Unternehmenskultur, unsere Werte und Visionen.

**XING AG**, Dammtorstraße 29-32, 20354 Hamburg, [www.xing.com](http://www.xing.com)
